Using Institutional Dashboards

HEATHER MECHLER

DIRECTOR, OIA

Why Dashboards?

- More interactive
- Allows for more granular reporting
- Easier to customize and modify
- Ease of exporting graphics for presentations
- Better expression of longitudinal data
- More fun than scanning through a huge PDF

Visual Offerings

- Factbook
 - Enrollment
 - Degrees
 - Faculty and Staff
 - Financial Aid
- Official Enrollment Report
 - By Major
 - SCH by Course College
- First-year Cohort Tracking
- Graduate Studies
- And a few more...

UNM Graduate Enrollment and Degrees Conferred, 2014-2019

FANTASTIC DASHBOARDS AND WHERE TO FIND THEM

- <http://oia.unm.edu> (under “Facts and Figures”)
 - Course Fail Rates Dashboard (<http://oia.unm.edu/facts-and-figures/course-fail-rates.html>)
 - Time to Degree (<http://oia.unm.edu/facts-and-figures/time-to-degree-.html>)
 - Graduation Rates (<http://oia.unm.edu/facts-and-figures/graduation-rates.html>)
- OIA Tableau Public site <https://public.tableau.com/profile/unm.oia#!/>

Using Dashboards

- It's impossible to break them, so explore with abandon!
- Many visualizations are completely interactive, so that clicking on a label or bar will filter the data.
- The back and reset buttons are your best pal.
- Tooltips are helpful for understanding data.
- Filters allow for analysis by subgroup
 - Drop down
 - Radio buttons
 - Sliders
